Health Canada Recall: 225 mL Polyester Hardener by Gelcote Product Code 112-3
(Health Canada Case Number 2023-076117)

Health Canada recently observed the 225 mL Polyester Hardener by Gelcote Product 112-3 for sale to consumers. The packaging and label do NOT meet the requirements for sale to the consumer under the requirements of the CCCR 2001.

Please note that the 20 Lt pail of Fiberglass Resin with wax and the 20 Lt pail of Fiberglass Resin without wax (both Product Code 105-04) have the 225 ml Polyester Hardener by Gelcote taped to the top of the pail. The recall applies to these units as well.

The recall is only for product/units that are available for sale to consumers (either directly or indirectly) and not for product/units being sold for use in workplaces.

If you have any product/units available for sale to the consumer (either directly or indirectly), you need to comply with the following:

- Transfer the stock to distribution to workplace use only.
- Destroy the stock in accordance with local, provincial, and federal regulations. If required, Lloyds Laboratories Inc. will provide directions on how to do this.
- Ship product back to Lloyds Laboratories Inc. at the above address. Please ensure that the return is marked for Attention to Kathryn Heard - Health Canada Recall so that we can monitor returns and provide your company with a credit.

As part of the recall process, Lloyds Laboratories Inc. has a legal obligation to inform Health Canada of the progress of this recall. As a result, please notify Lloyds Laboratories Inc. Attn: Craig Willoughby Jr at craigalexander@lloydslaboratories.com of the number units that were available for sale to consumers and the action taken to remove them from sale to consumers by no later than end of business November 16, 2023.

If you have any questions, please do not hesitate to contact the undersigned.

Yours Truly

Craig Willoughby
President.
